FOR IMMEDIATE RELEASE

LAUNCH OF EZYCARGO INTERNET PORTAL

Global Logistics System (HK) Co Ltd (GLSHK) together with Cargo Community Network of Singapore (CCN) today announced the launch of a new Internet-based cargo portal. This Internet portal, called Ezycargo, has been jointly developed and is jointly operated by GLSHK and CCN.

Ezycargo has the initial support from four leading Asia-Pacific airfreight carriers: Cathay Pacific Cargo, Japan Airlines Cargo, Qantas Freight and Singapore Airlines Cargo.

Ezycargo is a full-service Internet-base air cargo portal. Customers will be able to make allotment and free-sale bookings, review flight schedules and cargo space availability as well as track and trace the progress of their shipment.

The service will also offer up-to-date airway bill stock management, e-invoicing and e-payment facilities, along with a variety of advanced electronic features to suit individual customer's needs.

GLSHK Chief Operating Officer Paul Tam said: "Ezycargo represents a major milestone in the development of e-business capabilities in the air cargo community. With access to a complete e-cargo management solution, both forwarders and airlines can leverage Ezycargo's sophisticated online functions to enhance customer satisfaction and business competitiveness."

CCN General Manager Lim Yeok Chiang said: "The partnership of CCN and GLSHK will enable the two companies to offer e-solutions to airlines and forwarders on a global basis."

Global Logistics System (HK) Co. Ltd., also known as TRAXON-HK™, has been serving the cargo community since 1992. Cargo Community Network Singapore has also been offering services to the air cargo community since 1992.
